1.	According to an advertisement published in the <u>Saechsische Zeitung</u> in Goerlitz construction workers of all kinds were to report to Graduate Engineer Ernst-Hans Hentschke at building No 42 on the Rothenburg	25X1
1.	Magineer Ernst-Hans Hentschke at building No 42 on the Rothenburg	
2.	Magineer Ernst-Hans Hentschke at building No 42 on the Rothenburg construction site. In March 1953, the construction of about 40 single-story wooden buildings was completed at Rothenburg. Observed construction work on temporary single-story buildings and quartering buildings in the wooded area between Noes and Lodenau. The airfield was no longer under cultivation and its former boundaries were marked by poles. An estimated 400 workers were seen at the installation. Construction material was piled up along the	25X1 25X
